

# **VMware Infrastructure 3.5**

# ESX Server 3.5 / VC 2.5 New feature Summary

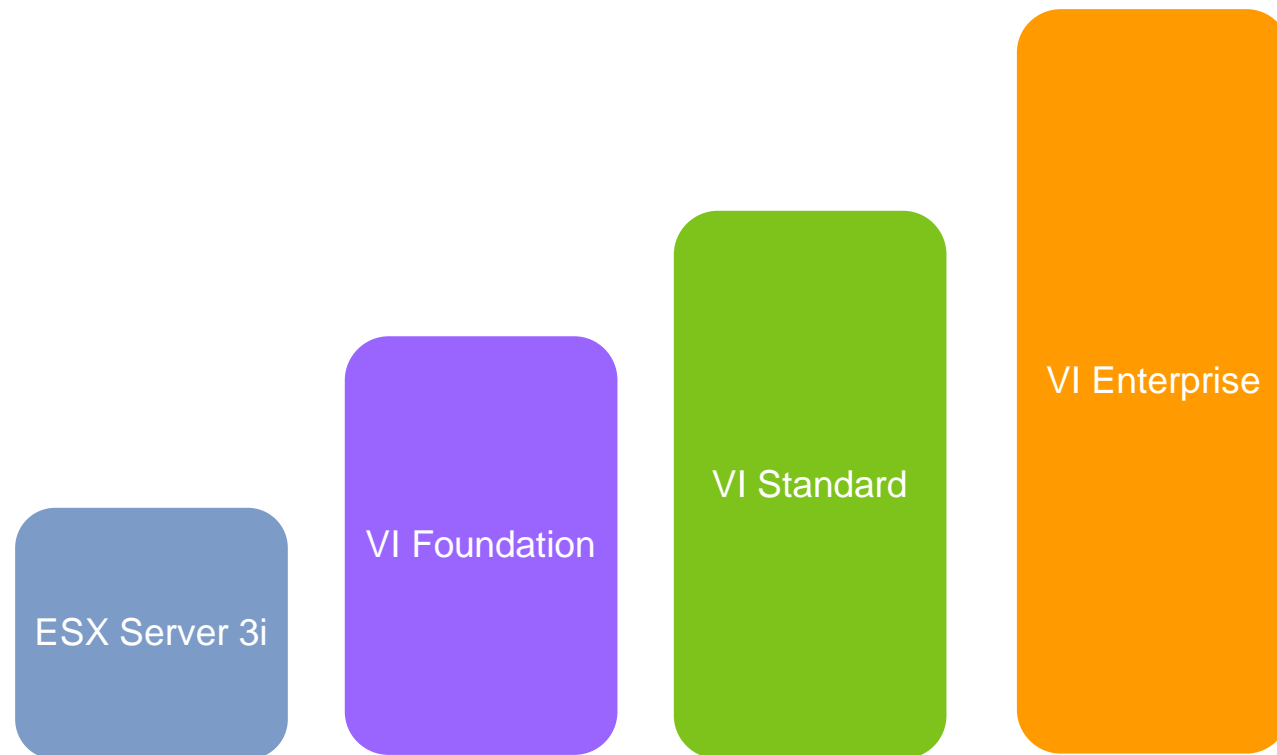

## > ESX Server 3i

- Next generation hypervisor architecture
- Small form factor
- Delivered
  - Integrated with hardware
  - Sold standalone

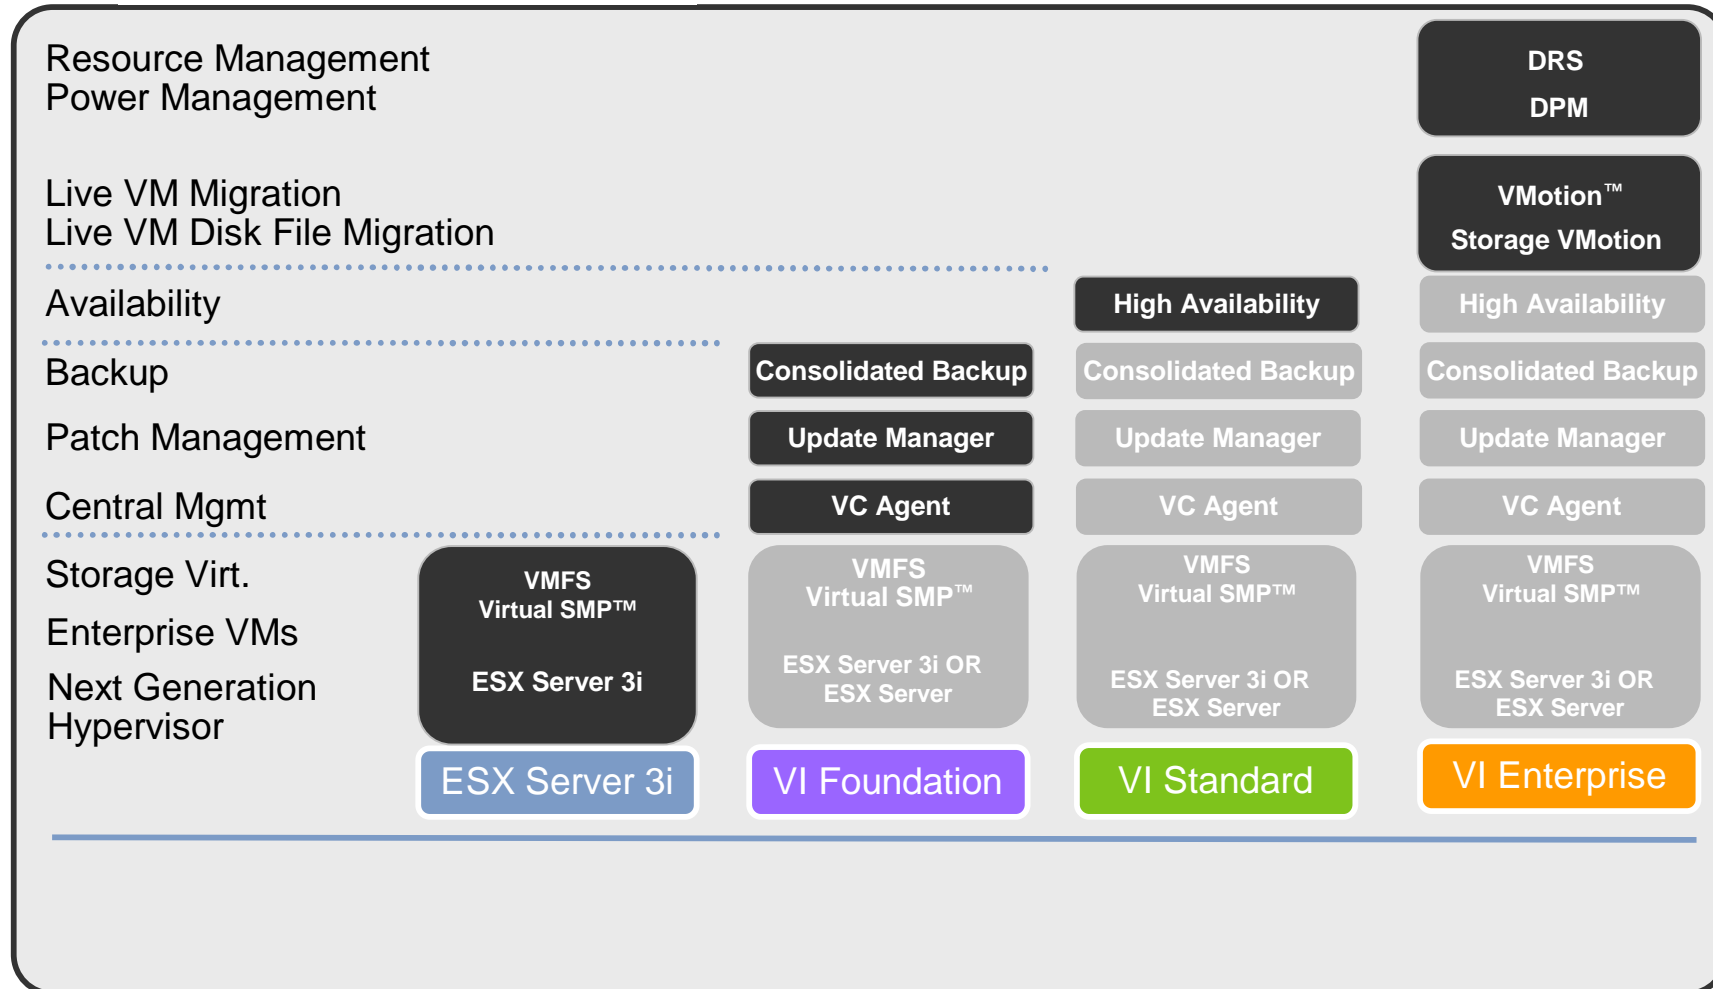

## > New products and features in ESX Server 3.5/VirtualCenter 2.5

- Storage VMotion: non disruptive migration of virtual machine disks
- Distributed Power Management (part of DRS): reduces power consumption through intelligent workload balancing
- Update Manager – automates patch and update management for VMware ESX Server hosts and virtual machines
- Guided Consolidation (part of VirtualCenter Management Server): enables companies to get started with server consolidation in a step-by-step tutorial fashion

## VI Editions: VI 3.5

# New VI Editions

\* SnS not mandatory for ESX Server 3i (embedded or standalone)

## New VI Bundles

	VI Foundation Acceleration Kit	VI Standard HA Acceleration Kit	VI Midsize Acceleration Kit	VI Enterprise Acceleration Kit (existing bundle)
<b>Components</b>	<ul style="list-style-type: none"> <li>" VI Foundation for 6 processors</li> <li>" VirtualCenter Foundation</li> </ul>	<ul style="list-style-type: none"> <li>" VI Standard for 4 processors</li> <li>" VirtualCenter Foundation</li> </ul>	<ul style="list-style-type: none"> <li>" VI Enterprise for 6 processors</li> <li>" VirtualCenter Foundation</li> <li>" 30 Training and consulting credits</li> </ul>	<ul style="list-style-type: none"> <li>" VI Enterprise for 8 processors</li> <li>" VirtualCenter</li> </ul>
<b>Target Market</b>	<b>SMB</b>	<b>SMB</b>	<b>Mid-Market</b>	<b>Enterprise</b>
<b>Price</b>	<b>\$2,995</b>	<b>\$5,995</b>	<b>\$14,495</b>	<b>\$23,235</b>
<b>Support</b>	<ul style="list-style-type: none"> <li>" Mandatory for first year for all bundles</li> <li>" Purchased separately</li> </ul>			
	<b>Gold: \$629</b> <b>Platinum: \$749</b>	<b>Gold: \$1,259</b> <b>Platinum: \$1,499</b>	<b>Gold: \$2,414</b> <b>Platinum: \$2,874</b>	<b>Gold: \$4,879</b> <b>Platinum: \$5,809</b>
<b>Rationale</b>	<b>Managed VI for smaller environment</b>	<b>HA solution for SMB and ROBO markets</b>	<b>VI Enterprise for smaller environment</b>	<b>Existing SKU – SnS now sold separately</b>

## Summary

- > VI Enterprise adds significant new functionality and remains the gold standard for virtual infrastructure
- > ESX Server 3 and ESX Server 3i can be used interchangeably in the VI suites
  - Standalone version of ESX Server 3i can only be used for single server partitioning
- > New bundles make it attractive to use VMware Infrastructure for specific types of deployments such as for availability or for a remote/branch office
